# STEEL FRAME®

## KEY FEATURES:

- PRECISION MACHINED STEEL FRAME
- QUICK DEFENSE TRIGGER
- FULL LENGTH PICATINNY DUST COVER
- PORTED SLIDE
- OPTICS MOUNTING SYSTEM
- MATCH GRADE ACCURACY
- EXTENDED BEAVERTAIL

## PRECISION MACHINED STEEL FRAME

No other gun manufacturer has a closer connection to competitive shooting. The Q5 Match Steel Frame combines our knowledge of making steel frame defense guns and our history of manufacturing competition guns that help win Gold Medals at the Olympics. This precision machined steel frame still incorporates the Walther Signature Ergonomics that the polymer series feature, but, gives you an increased frame weight to reduce muzzle rise and help you shoot faster. This frame also features a full length picatinny dust cover, 20 lpi machined front strap cross checkering, extended beavertail, recessed slide release and interchangeable grip panels. The Q5 Match Steel Frame is a high-quality, performance driven handgun that will make you the envy at any range.

# STEEL FRAME

## QUICK DEFENSE TRIGGER

With the creation of the PPQ came the Quick Defense trigger from Walther. Providing the shooter an alternative to the heavy, spongy striker-fired guns on the market.

The Quick Defense trigger is a safe two-stage trigger with a crisp-break, and short-reset. The first stage allows for consistent prep with a distinct wall that can be easily found under stressful situations. The second stage is the crisp break of the wall, resulting in accurate shots on target.

The reset of the Quick Defense trigger measures only 1/10", allowing the shooter to skip the first stage of the trigger completely and fire the follow up shot by only moving their finger 1/10 of an inch. Resulting in faster, more accurate and consistent shots on target.

# Q5 MATCH

GERMAN CRAFTSMANSHIP

WALTHER STEEL FRAME® - BE THE ENVY

## BE THE ENVY

The Q5 Match Steel Frame offers an alternative to the flat, square styling of the competition. Providing the shooter with a precision machined steel frame and a ported slide, this gun delivers the quality and performance needed to win at the highest levels, while still providing the style and attention-to-detail to make you the envy at any range.

OPTICS MOUNTING PLATE

## SPECIFICATIONS:

Model:	2830001	2830418
Caliber:	9mm	9mm
Finish:	Tenifer	Tenifer
Magazines Included:	3	3
Barrel: (Length - Twist)	5" - 1/10	5" - 1/10
Trigger Pull:	5.6 lbs	5.6 lbs
Capacity:	15 rds	17 rds
Overall Length:	8.7"	8.7"
Height:	5.4"	5.9"
Width:	1.3"	1.3"
Sight Radius:	7.2"	7.2"
Weight (empty mag):	41.6 oz	42.3 oz

## STEEL FRAME - FEATURES

### ALL STEEL CONSTRUCTION WITH EXTENDED FRAME RAILS

**QUICK DEFENSE TRIGGER:** Smooth, light 5.6 lb trigger pull for all shots. Short 0.4" trigger travel with safety and 0.1" trigger reset for fast, accurate follow-up shots. Superb trigger feel aids accuracy.

**INTEGRATED OPTICS MOUNTING SYSTEM:** With choice of plates for Trijicon, Leupold, and Docter red dot optics.

**ERGONOMIC WALTHER GRIP:** Wrap around grip panel offers perfect texture.

**PORTED SLIDE:** For weight reduction and barrel cooling.

**TENIFER™ COATING:** On Frame, Slide & Barrel. Resists corrosion. Matte finish.

**AMBIDEXTROUS SLIDE STOP:** Slide locks back on empty magazine. Slide stop is extended for easy gloved operation.

**EXTENDED MIL-STD-1913 PICATINNY ACCESSORY MOUNTING RAIL:** For lights, lasers, or other tactical devices.

**FRONT AND REAR SLIDE SERRATIONS:** Non-slip surface to operate the slide smoothly. Distinctive Walther styling.

**AMBIDEXTROUS MAGAZINE RELEASE BUTTON:** Conveniently positioned for thumb operation. Reversible for right or left hand operation.

**FIBER OPTIC FRONT SIGHTS AND REAR COMPETITION SIGHTS ADJUSTABLE FOR WINDAGE AND ELEVATION**

## KEY FEATURES:

- INTEGRATED FRONT & REAR SIGHTS
- DE-COCKING SAFETY
- DOUBLE-ACTION/SINGLE-ACTION
- WRAP-AROUND GRIP PANELS
- FIXED-BARREL BLOWBACK SYSTEM

## ICONIC, INFLUENTIAL & TIMELESS

It's back. The PPK and PPK/s return to the Walther lineup better than ever. A perfect combination of German engineering and American craftsmanship with the slides being made in our Ulm, Germany factory and all other parts being made in the USA and assembled in our Ft. Smith, Arkansas factory. This allows us to have better control over the quality of the pistol and offer a higher quality product in which the iconic PPK line truly deserves. There are very few guns that have withstood the test of time and the PPK line is one of them by still being one of our most requested handguns for over 80 years.

# PPK®

## FIXED-BARREL BLOWBACK

Carl Walther's greatest interest was the design of self-loading pistols, or, better known today as semi-automatic pistols. He designed and patented the world's first fixed-barrel semi-automatic pistol in the early 1900's. This design is still used today in the PPK line. The fixed barrel allows for the pistol to be extremely accurate, even with a compact barrel. Whether you are replicating your favorite spy movie, collecting a classic, or need a classy EDC gun, the PPK & PPK/S are must haves.

# TIMELSS

A WORLDWIDE ICON

WALTHER PPK® - LEGENDARY

## A WORLDWIDE ICON

The PPK is one of the few iconic firearms that is still manufactured over 80 years after its introduction, a testament to the truly timeless design and elegant style of this world-class handgun. Its small stature, smooth ergonomics, and superior engineering make it a legend among firearms.

WALTHER PPK/S®22 - RIMFIRE

## LEGENDARY DESIGN IN RIMFIRE

The PPK/S .22 features the “sporty” features of a longer grip and greater magazine capacity, and blends the classic PPK design with the fun and cost savings of the .22 L.R. While dimensionally identical to its .380 PPK counterpart, you can shoot the .22 rimfire for pennies a shot. Great for the whole family, the PPK/S .22 is a quality firearm you will be proud to pass to the next generation.

**SIGHTS:** Metal rear sights adjustable for windage. Polymer front sight is fixed with 3 different heights for elevation.

# PPQ<sup>®</sup> M1

The Walther logo is a stylized banner with the word "WALTHER" in a bold, sans-serif font.

## KEY FEATURES:

- QUICK DEFENSE TRIGGER
- WALTHER SIGNATURE ERGONOMICS
- FULLY AMBIDEXTROUS SLIDE RELEASE
- FULLY AMBIDEXTROUS MAGAZINE RELEASE
- INTERCHANGEABLE BACKSTRAPS (SMALL, MEDIUM, LARGE)

## MAGAZINE RELEASE

The PPQ was originally introduced with a European style paddle magazine release that is located on the trigger guard. This extended lever allows for the shooter to easily release the magazine without breaking their grip. It can either be activated by the trigger finger, middle finger, or thumb. Making this one of the most versatile and fastest magazine releases available. The paddle magazine release is also fully ambidextrous, allowing you the ability to release the magazine whether you are shooting strong or weak handed, without the need of reversing a button.

# PPQ<sup>®</sup> M1

## QUICK DEFENSE TRIGGER

With the creation of the PPQ came the Quick Defense trigger from Walther. Providing the shooter an alternative to the heavy, spongy striker-fired guns on the market.

The Quick Defense trigger is a safe two-stage trigger with a crisp-break, and short-reset. The first stage allows for consistent prep with a distinct wall that can be easily found under stressful situations. The second stage is the crisp break of the wall, resulting in accurate shots on target.

The reset of the Quick Defense trigger measures only 1/10", allowing the shooter to skip the first stage of the trigger completely and fire the follow up shot by only moving their finger 1/10 of an inch. Resulting in faster, more accurate and consistent shots on target.

## WALTHER<sup>®</sup>

### KEY FEATURES:

- WALTHER SIGNATURE ERGONOMIC GRIP
- QUICK DEFENSE TRIGGER
- FRONT & REAR SLIDE SERRATIONS
- INTERCHANGEABLE BACKSTRAPS (SMALL, MEDIUM, LARGE)
- REVERSIBLE, OVER-SIZED BUTTON MAGAZINE RELEASE

## BUTTON MAGAZINE RELEASE

The Walther PPQ M2 is a perfect combination of German Engineering and American Style. Unlike the PPQ M1 series, the M2 features an American/Button magazine release. This reversible, over-sized button provides more consistency for shooters in the American market by providing no confusion when switching between handguns. This American/Button magazine release is still built around the famous Walther ergonomics. Unlike other button style magazine releases on the market, the design in the PPQ M2 allows for the activation of the magazine release without having to change your grip on the gun. Allowing for faster, more consistent reloads.

# PPQ<sup>®</sup> M2

## QUICK DEFENSE TRIGGER

With the creation of the PPQ came the Quick Defense trigger from Walther. Providing the shooter an alternative to the heavy, spongy striker-fired guns on the market.

The Quick Defense trigger is a safe two-stage trigger with a crisp-break, and short-reset. The first stage allows for consistent prep with a distinct wall that can be easily found under stressful situations. The second stage is the crisp break of the wall, resulting in accurate shots on target.

The reset of the Quick Defense trigger measures only 1/10", allowing the shooter to skip the first stage of the trigger completely and fire the follow up shot by only moving their finger 1/10 of an inch. Resulting in faster, more accurate and consistent shots on target.

WALTHER PPQ® 45 - HIGH POWERED

## HIGH POWERED PROTECTION

Walther now has a .45 in the family. It features a grip that is the same circumference as its little brother the PPQ 9mm, while still boasting a 12-round magazine capacity. The PPQ 45 is also equipped with the quick defense trigger made famous by the PPQ family. Combining the German engineering of the PPQ and the American .45 ACP ammunition produces an extremely accurate handgun with low muzzle blast and very moderate recoil. If you are looking for a soft shooting, heavy hitting, self and home-defense handgun, look no further than the PPQ 45.

# PPS<sup>®</sup> M2

## KEY FEATURES:

- WALTHER SIGNATURE ERGONOMICS
- FRONT & REAR SLIDE SERRATIONS
- UNDERCUT TRIGGER GUARD
- SUPERB TWO-STAGE CARRY TRIGGER
- INTERNAL STEEL CHASSIS

## SLIM COMPACT ERGONOMICS

Measuring in at only 1" in width, the PPS M2 is the perfect combination of concealability and high performance. Unlike the competition, the PPS M2 features superior ergonomics for a single-stack 9mm. The undercut trigger guard and frame design allow the shooter to have plenty of contact with the frame from both the dominant hand and the support hand. This allows the shooter to have a higher grip on the gun, which results in reduced recoil and consistent shots on target.

# PPS® M2

## ACCURACY

One of the biggest problems for slim compact handguns on the market is the struggle to maintain accuracy with such a short barrel. The PPS M2 has features that allow it to surpass the competition in the field.

First is the full-length internal steel chassis. This allows for precise slide to frame fit that results in keeping tighter groups down range. Second is the stepped chamber. A stepped chamber means the first section of the chamber is a looser fit to aid in the reliability of the round feeding, and the last section of the chamber provides a tighter fit. The tighter tolerance and consistent placement of the round leads to greater accuracy.

# CONCEAL

IDEAL CONCEALED CARRY

WALTHER PPS® M2 - IDEAL CARRY

## CONCEALED CARRY REDEFINED

The PPS M2 is the latest upgrade to a classic design from Walther. The M2 features everything you asked for in the classic PPS. Walther signature ergonomics, button style magazine release, and front slide serrations. Built with the concealed carry shooter in mind, the Walther PPS M2 represents everything the American market has asked for.

## KEY FEATURES:

- SOFTCOIL<sup>™</sup> GAS TECHNOLOGY
- TOOL-LESS TAKEDOWN
- RED VISUAL COCKING INDICATOR
- WALTHER SIGNATURE ERGONOMICS
- AMBIDEXTROUS PUSH BUTTON STYLE MAGAZINE RELEASE
- LIGHT WEIGHT TRIGGER FOR GREATER ACCURACY
- MANUAL THUMB SAFETY

## EASY TO RACK SLIDE

The CCP M2 is an innovative mix of modern handgun technology and Carl Walther's original fixed-barrel semi-automatic design. The CCP M2 features a fixed-barrel with the revolutionary SoftCoil delayed blowback system. One of the primary features of this system is that it allows the shooter to easily manipulate the slide, no matter their level of hand strength. The CCP M2 is one of the easiest handguns to operate in the 9mm market.

# CCP<sup>®</sup> M2

## SOFTCOIL SYSTEM

The SoftCoil Gas technology is a gas-delayed blowback system that uses gas pressures from the ignited cartridge. The gases are directed through a small port in the barrel directly in front of the cartridge chamber, which fill a piston chamber. As the slide moves rearward, the piston that is attached to the slide, under the barrel, moves through the gases in the piston chamber. This process results in slowing down and delaying the rearward motion of the slide. The advantages of having the SoftCoil system is that it requires less force to operate the slide and reduces felt recoil.

# SOFTCOIL

SOFTCOIL GAS TECHNOLOGY

WALTHER CCP® M2 - EDC REFINED

## SOFTCOIL GAS TECHNOLOGY

The CCP M2 from Walther is a terrific addition to our extensive line of Concealed Carry firearms. The Softcoil gas technology helps reduce recoil and delivers a pistol with superior ergonomics and excellent accuracy. The delayed blowback technology is a unique feature for the CCP M2 and creates a platform ideal for those looking for a firearm that is easy to utilize and easy to shoot. Now with the NEW tool-less takedown, the CCP M2 is better than ever.

## KEY FEATURES:

- EASY TO RACK SLIDE
- DOUBLE ACTION/SINGLE ACTION TRIGGER
- SLIDE MOUNTED MANUAL SAFETY
- PADDLE STYLE MAGAZINE RELEASE
- FULLY AMBIDEXTROUS
- LOADED CHAMBER VIEW PORT

## MAGAZINE RELEASE

The PK380 was introduced with a European style paddle magazine release that is located on the trigger guard. This extended lever allows for the shooter to easily release the magazine without breaking their grip. It can either be activated by the trigger finger, middle finger, or thumb. Making this one of the most versatile and fast magazine releases available. The paddle magazine release is also fully ambidextrous, allowing you the ability to release the magazine whether you are shooting strong or weak handed, without the need of reversing a button.

# PK380®

## COMFORT & CONTROL

One of the best features of the PK380 is its ease of use. This is the lightest recoiling pistol in the Walther lineup, with the easiest slide to rack. The Walther Signature Ergonomics help the PK380 fit in the hand perfectly, while making it easier to maintain a perfect grip to aid in recoil reduction. The DA/SA trigger allows for easy and precise shots on target, making this an incredibly fun gun to shoot.

## KEY FEATURES:

- WALTHER SIGNATURE ERGONOMICS
- CAPTURED RECOIL SPRING
- AMBIDEXTROUS PADDLE-STYLE MAGAZINE RELEASE
- DOUBLE/SINGLE ACTION TRIGGER
- INTERCHANGEABLE BACKSTRAP
- DECOCKER FUNCTION SAFETY

## REVOLUTIONARY RIMFIRE

The original P22 revolutionized what was capable in the rimfire market, bringing a polymer, tactical style .22 L.R. at an incredibly affordable price. Building on the already great features of the original, the P22 QD features a new captured recoil spring assembly for simplifying the cleaning process. It also features a decocking safety, allowing the shooter to safely decock the hammer and shoot in double-action. The P22 QD has increased reliability with standard velocity .22 L.R. ammunition, allowing you to have fun at the range at an even cheaper cost.

# P22® QD

## DECOCKING SAFETY

Developed by Fritz Walther in the early 1920's, the PPK series was the first handgun to feature the Double Action / Single Action with a rotating decocking safety. The P22QD may be a modern handgun, but nearly 90 years later, the Double Action / Single Action with decocking safety is still a highly-requested feature.

# RIMFIRE

REVOLUTIONARY RIMFIRE PISTOL

WALTHER P22® QD - RIMFIRE

## RIMFIRE PISTOL

The contemporary styling of the P22, now featuring a captured recoil spring and decocker built into the safety. This accurate and easy-to-operate .22 rimfire handgun is fun to shoot and has Walther's signature ergonomics. Make no mistake about it, whether you are shooting for fun or defense, the P22 is all business for shooters of all ages.

**FRONT AND REAR SLIDE SERRATIONS:** Non-slip surface to operate the slide. Distinctive Walther styling.

**EXTERNAL SLIDE STOP:** Slide locks back on empty magazine.

WALTHER P22® QD - RIMFIRE

## BE DIFFERENT

With the great popularity of the P22 series, you may want some custom choices to differentiate yourself from the rest of the people at the range. Walther offers plenty of choices for the P22, whether you want a suppressor ready version, tactical flat dark earth finish, military OD green frame, or an elegant Angel Blue with nickel slide, there is an option for you.

# THE WALTHER LEGENDARY LIFETIME LIMITED WARRANTY

The Walther Legendary Lifetime Limited Warranty gives you absolute confidence in your decision when you purchase a Walther. With Walther, you can rely on the precision of German engineering and the dependability of an American guarantee. Our warranty provides unwavering support for your new firearm and continues for the life cycle of the product as long as the company manufactures and supports it. If you purchase a Walther firearm, it carries its Legendary Warranty regardless of whether or not you are the original purchaser. This warranty covers Walther centerfire and rimfire firearms, produced after 1993 only and does not apply to antique, limited edition, or custom firearms.

If your Walther firearm has a defect in materials or workmanship, please contact Walther or return the firearm, postage paid, with a brief description of the problem to us at the following address for a repair or replacement at no cost to you:

**Walther Arms, Inc. - 7700 Chad Colley Blvd | Fort Smith, AR 72916**

This Warranty does not cover cosmetic blemishes or wear and tear associated with normal use. This warranty does not cover any problems caused by abuse, misuse, or acts of God. This Warranty does not cover defects or damage caused by the use of parts or service not provided by Walther. Walther assumes no liability for consequential, punitive or other damages (except as set forth herein) related to a claim under this warranty. A service and/or handling charge may be required for non-warranty repairs. This warranty applies to the United States of America and covers only firearms currently produced and supported by Walther and distributed by Walther Arms, Inc. in Fort Smith, Arkansas in the United States of America. This warranty does not cover firearms that have been discontinued by Carl Walther or Walther Arms, Inc. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

## SERVICE DEPARTMENT

LEGENDARY FIREARMS COME STANDARD WITH LEGENDARY SERVICE

### 48-HOUR WARRANTY SERVICE TURNAROUND

World class service is provided for our Walther customers by the professional group of gunsmiths and gun techs staffed at our facility in Fort Smith, Arkansas. Our goal is to service your firearm and ship it back to you within 48 hours of arriving at our facility.

To contact customer service please call 479-242-8500 Ext 507 or email [customerservice@waltherarms.com](mailto:customerservice@waltherarms.com).

## SUCCESS

Team Walther has taken the shooting sports by storm, winning at the highest levels of USPSA, IDPA and 3-Gun competitions around the United States. Also, competing in IPSC competitions around the world. Hours upon hours of practice, thousands of rounds fired, multiple trophies acquired, but Team Walther's best attribute is their ability to communicate and show how great the shooting sports community can be by helping others at matches and being great people to squad with.

## CONTINGENCY PROGRAM

The #WinWithWalther contingency program is back for 2019 and it is bigger than ever! If you get 1st or 2nd place in a sanctioned USPSA or IDPA contingency match, Walther will pay you cold hard cash\*. We have \$450,000 on the line so get out there and start practicing so you can Win With Walther.

\*Must follow the terms and conditions detailed at [www.WaltherArms.com/WinWithWalther](http://www.WaltherArms.com/WinWithWalther)

## WALTHER A GERMAN SUCCESS STORY

This book, available in two volumes, was conceived to celebrate the 125-year anniversary of Carl Walther GmbH. This successful German company had its beginnings in the 19th century in the town of Zella St. Blasii (Thuringia), as a gunsmith workshop.

The first book begins with an overview of the events that occurred in the early 1990s, which brought the hand of fate in leading the WALTHER Company to merge with the Umarex Group. The historical portion addresses the origin of the WALTHER family business.

The second volume begins with the 1993 management change and is dedicated to the dynamic advances WALTHER made in the world market. By creating new models and developing innovative sports promotions, WALTHER has firmly positioned its company in the new century.

This is an amazing combination of history, innovation, and photography. If you are a firearms enthusiast or history buff, this book will be a valuable addition to your collection.

Available in  
English or  
German
